PROFESSIONAL EXPERIENCE

Software Developer | **Prospect Precise ITES LLP** | Pune, India

Feb 2026 – Present

► AI-Powered B2B Lead Management Platform

- Built and maintained a multi-role B2B lead management platform using React.js and Node.js/Express.js, supporting Campaign Coordinators, CD/CDQA executives, Managers, QA, and MIS teams across 1,000+ active users.
- Designed campaign management workflows allowing coordinators to define lead criteria, set targets, and assign campaigns to CD/CDQA teams, with real-time progress tracking and Excel export for managers.
- Built an end-to-end lead finalization workflow across Manager, QA, and MIS teams, covering lead verification, quality testing, and delivery template generation.
- Integrated Generative AI models and RAG (Retrieval-Augmented Generation) pipelines using Node.js to power AI-assisted lead verification and document search, improving task completion time by 30% and search accuracy by 40%.
- Built and consumed 20+ RESTful APIs connecting AI model providers and platform modules to deliver smart, context-aware lead management features.

Software Developer | **Senwell Group Private Limited** | Pune, India

Apr 2025 – Feb 2026

► AI Chat Application

- Implemented Microfrontend Architecture and built real-time AI chat interfaces using React.js, improving response rendering performance and reducing UI load time by 25%.
- Developed responsive and accessible AI chat UI components, enhancing user engagement and ensuring seamless experiences across desktop and mobile platforms.
- Integrated AI chat APIs and managed complex async data flows using React Query, reducing redundant API calls by 35%.

Associate Software Engineer | **Sculptsoft Private Limited** | Ahmedabad, India *Apr 2024 – Apr 2025*

► Electrical Asset Compliance & Work Order Management Platform

- Developed and maintained a multi-tenant platform supporting enterprise-level operations for 1,500+ users using React.js and Node.js.

- Implemented and enhanced 6+ modules for asset tracking, work order management, and compliance reporting within Agile sprint cycles.
- Participated in code reviews across 100+ pull requests, contributing to improved code quality standards and best practices.
- Contributed to RESTful API design, frontend-backend integration, and SQL/relational database management across multiple sprint deliverables.
